SETUP VIDEO

SLACK

High
Rebound

Slacken the tension in top straps
for a higher rebound.

TENSIONED

Low
Rebound

Tighten tension in top straps
for a lower rebound.

STEP 01 -

Click the frame parts together using spring pins as shown below.
Make sure all the parts are fully secured.

STEP 02 -

Feed top straps through the upper metal loops.

Now feed straps through the middle slots in the buckles.

Then feed straps through the end slots in the buckles.

STEP 03 -

Feed bottom Velcro straps through the lower metal loop.

Fasten the velcro straps tight to the underside of the net.

STEP 04 -

Put the smaller bungees through the eyelets on the front net.

Secure the net in place by locking the bungee around the frame.

Do the same for the rear net using the longer bungees provided.

Make sure the top and bottom bungees on the rear net go through the steel supports as shown below
